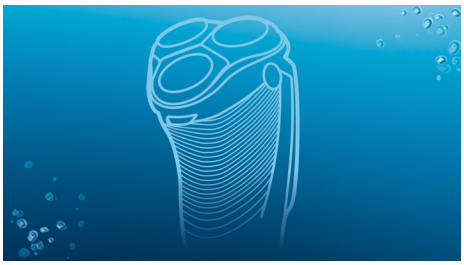
Highlights

Anti-slip grip



The grip's unique, ergonomic design and anti-slip materials make it easy to shave with precision and comfort.

Cordless use only

An efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 50 minutes of shaving time – that's around 17 shaves. Charge it for 3 minutes and you'll have enough power for one shave.

DualPrecision heads

DualPrecision heads comfortably shave both long hairs and short stubble. 1. Slots cut long hairs. 2. Holes cut stubble.

Skin protection system

Rounded low-friction heads adjust to the contours of your face to limit skin irritation.

Water-resistant

For easy cleaning, and wet & dry use

Pop-up trimmer

Complete your look by using the Pop-up trimmer. Perfect for maintaining a moustache and trimming sideburns.

(Patented) Super Lift & Cut

The first blade raises each hair while the second blade comfortably cuts it below skin level, for a really smooth result.

Aquatec wet and dry

The Aquatec wet & dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

Flexing heads

The flexing heads of your shaver keep the shaving surface in close contact with your skin for a fast and efficient shave.

SkinGlide system

The low-friction SkinGlide shaving surface slides smoothly along your skin for a close, easy shave.
